

Notes on compiling the 'Form' side of an entry form.

Copy a blank 'EntryForm.htm' to the event directory.

Edit the details with either an html editor such as Front Page or with a text editor.

Preview in your Web Browser

Select 'Page Setup'

Set to A4, landscape

Left, right, top & bottom to minimum possible (~3mm)

Print Preview - see it looks OK. No need for it to fit on one page here.

Print to Acrobat Distiller or equivalent

Preferences/Layout - select A4, landscape

Advanced button - set scaling to a value so that the result fits on one page (~ 95%)
